How do I actually list my project?

Listing a project with Brokers Carbon is really easy (assuming you have all the information you need on hand of course).

- Step 1.** Create a new account online and agree to our 'user agreement'.
- Step 2.** Select the type of listing or membership you would like. At this point you'll also need your credit card details to pay for the initial upfront listing fees or to start a new membership.
- Step 3.** Fill in your project information using our simple online form and agree to our 'services agreement'. This step will take the longest and you can save it at anytime and come back to it later if needed. Once completed then simply submit it to us online for approval.
- Step 4.** Brokers Carbon will then review your listing and make sure it is all in order. Minor changes will be made on your behalf and we'll let you know if there are any problems.

And that's it, your project goes LIVE for all to see.

What type of information will I need?

The simple answer to that is as much as information as possible. Our system is very flexible and the more you include the better your chances are of a buyer contacting you. Things such as supporting documentation, indicative pricing, standards and pictures are important.

The Important Details	
Listings Fees	Pay Per Project Listings are for 12 months, country specific and are charged annually in advance. Our Full Service Brokerage option is project based, country specific and may be subject to a success fee on signing of a contract and higher brokerage fees.
Success Fees & Commissions	A brokerage fee will be charged on all successful deals and transactions that close as a result of using our services. In addition to this we may also charge a success fee on signing for early stage projects/ forward sales.
How do I calculate these commissions?	Standard commissions are based on the following:* \$1 to \$5m - 3.50% \$5m to \$25m - 3.00% \$25m to \$100m - 2.50% \$100m and over - By Neg Please note: All amounts are listed in US\$ dollars. As an example, on a transaction valued at \$6m, Brokers Carbon would receive a brokerage commission of \$205,000.
Commissions & the Exclusivity Period (please note this is only for projects that are or have been previously listed with us).	Whilst your project is listed with us online (and for a period of 36 months after for early stage projects and forward sales or 18 months for over-the-counter transactions) we are entitled to a charge a commission in regards to the project on all and any transactions that are made as a result of an introduction (both directly and indirectly) with one of our registered users.
Transactions and Settlements	Unless agreed otherwise by us all transactions and settlements will be conducted through an authorised and approved settlement house/facility/partner.

* Commission may change from time to time but are individually locked in per project at the time of listing and the minimum commission amount per deal/transaction is \$500. See online for the latest details. Please refer to our Listing Agreement and Brokerage Agreement for further details.

About Us

Brokers Carbon is a online marketplace for early stage environmental projects and emission reduction opportunities.

We help buyers and sellers in the environmental markets facilitate forward sales, over-the-counter transactions, strategic investments and partnerships depending on our users individual requirements.

As such we are not a registry or an exchange. Instead we typically get involved early on at a project level before any offsets or carbon credits even exist.

Essentially we act as environmental 'match-makers' and simply let you do business the way that you know best.

search, list, buy & sell

Questions & Answers

Q. Who will be able to see my project information and contact details online? A. Our system has been designed to be as transparent as possible. All of your basic project information will be made available to registered users including pictures, a basic description, region, sector, type and asking price. Information such as country of origin, registry details and your contact details can only be seen by our direct access buyers.

Q. Will I be able to see who the buyers are and contact them direct? A. No, unfortunately not. This is one of the main reasons why the system works and buyers register with us. This way they can keep their identity private until they choose to contact you direct.

Q. What if I need help with my listing? A. That's not a problem, we are always here to help. Every time you list a new project you are also allocated a personal project manager by Brokers Carbon who will help you with any issues and check that your project is ok to go live. Once live, your project manager will also follow your project through to final settlement and help you to ensure that everything is ok with you project along the way.

Q. What if my project is already listed somewhere else or on a registry. A. That's actually a positive. We have a section built into all listings that allows you to link to a registry if your project is already listed on it. From a buyers perspective this adds to the credibility of the project and lets them check it all out first and make sure everything is in order.
